TROCKLAND®

October 18, 2023

Le's Talk!

Since 2019, we have been organizing regular discussion events on current social, economic and political topics. Our aim is to bring different groups of people together and openly exchange information and opinions. In 2023, we were particularly focused on the topic of "security": both "security in Berlin" as well as our "national security in times of wars".

Two events were dedicated to this topic with outstanding experts on stage.

We would like to thank all the speakers, moderators and guests who are committed to this city, the community and beyond.
